|--|--|
| Name and type of organisation providing education and training | University of Jordan (public university). |
| Level in national or international classification | University number one in Jordan. |
| Dates | September 2003 to July 2004. |
| Title of qualification awarded | High school certificate (Ministry of education) and scored 95.4% |
| Name and type of organisation providing education and training | Al Omariyah schools (private schools) enrolled by a grant. |
| Dates | November 2015 till August 2017 |
| Name and type of organisation providing education and training | Clinical training in the field of Prosthodontics (elective training) in Jordan University hospital for the purpose of fulfilling the requirements of Jordanian board in Prosthodontics exam , treating various clinical cases in the specialty clinics in the department of prosthodontics under the supervision of the department of prosthodontics. The main supervisor was Prof. Kifah Jamani. |
| Dates | January 2014 to September 2014 |
| Name and type of organisation providing education and training | Starting PhD in dental sciences in the faculty of dentistry of McGill university in Montreal/Canada, during which I took some research based courses and started working in my PhD thesis, and I published a clinical study in one of the most important international dental journals (with same contribution as the first author). Then, unfortunately, I had to interrupt my PhD and I asked for official leave of absence from the university and in a later stage I asked for withdrawal from the program due to urgent familial issues at that time (due to the hard medical situation of my mother in Jordan in summer 2014) providing the university with the supporting medical reports of my mother (RIP) which explained her urgent situation which forced me to interrupt and then leave the PhD program, given that the university and my supervisor understood totally my situation and decision at that time. |
| Publications | Participated as author (same contribution as the first author) of a scientific paper of a clinical study entitled as "Nasal floor elevation for implant treatment in the atrophic premaxilla: a within-patient comparative study" which was published in 2014 in one of the highest impact factor international journal in dentistry "Journal of clinical implant dentistry and related research", and this was performed during my stay in the department of restorative dentistry and prosthodontics in the faculty of dentistry of McGill university in Montreal-Canada from January 2014 to September 2014. I contributed to this work equal to the first author of the paper as shown in the authors description in the paper. I also participated in the collection and analysis of data in a study of orthodontics in my university under the name "Bullying among Jordanian schoolchildren, its effects on school performance, and the contribution of general physical and dentofacial features" published in "American Journal of Orthodontics and Dentofacial Orthopedics", knowing that my name was mentioned in the section of "Acknowledgements" . |
| Conferences | I participated in the scientific workshop of COST Action D43 (Functionalized Materials and Interfaces) organized by (the department of Physical-Chemistry 2 - Faculty of Pharmacy - Complutense University of Madrid). In this meeting I had a poster presentation about my master work in the field of bone tissue engineering. *Attended the 2 nd Scientific International Conference held in the University of Jordan in 2009. |

Personal skills and competences

**It was the language of my study in the university, and it was a basic subject in the school.*

*** I got a score of 9/10 in Spanish language level A2.1 in Amman, in addition to that it was the language of study in the master knowing that i lived in Spain one year and it was my language of communication there.*

**** I took two courses in French language in the French institute in Amman (I passed 4 levels), in addition to the self-studying.*

-Note: Recently i did TOEFL internet-based test and my overall score was 87 (with 25 out of 30 in writing section, 23 in speaking, 20 in listening, 19 in reading), and also in 2012 i did the **IELTS** English Proficiency test, and my overall score has been **6.5** (7 in each of the listening and speaking sections).

Social skills and competences

Great ability to adapt to multicultural environments, since i lived one complete year in Madrid . During this year, i gained a wide life experience, and enhanced my self-confidence and self-dependence , as i lived there without my family. I had to deal with many people from different cultures using a completely new language. I demonstrated my capabilities, and i was able to freely communicate with the people there in Spain. I was a good social member within my research team during the master. They liked working with me, and strong relationships were built between me and them. I had a great enthusiasm to work hard, and i showed the team spirit.

I also gained good communication skills through my experience in my job as a dentist, in addition to my experience in dealing with people during my research works, such as the research work which included visiting 10 elementary schools in Jordan, and my research project of the master, in which i had to deal with many people in various fields to accomplish my job.
I also participated in a campaign in some schools in Amman aimed to teach the students all about oral hygiene and the methods to maintain it.

Organisational skills and competences

Leadership; as I was the leader of the faculty football team in the university, winning the bronze medal twice in the official football university championship for faculties.
Planning; as i participated in the planning for several charity works in the university.

Computer skills and competences

Good command of Microsoft Office™ tools (Word™, Excel™ and PowerPoint™);

Other skills and competences

I am an excellent football player, i was a famous and great player in the football team of the faculty of dentistry at the university of Jordan. I was the captain and the striker of the team, i scored many important goals. We won twice the third place (the bronze medal) of the football championship for the faculties of the university. Moreover, i was a great football player throughout my life in all the competitions i participated in, including the competitions in Spain (i was a member of the faculty team there too).

Driving licence | Category B driving licence.

Additional information

I Have a certificate of attending a workshop in NiTi Rotary Instrumentation in Endodontics in June 2009.
